PROJECT TITLE: Camp Host Site Fence, Idyllwild Campground MSJ (11/12-IE-22)

LOCATION: Mt. San Jacinto State Park

COUNTY: Riverside

DESCRIPTION OF THE NATURE AND PURPOSE OF PROJECT:

The site adjacent to the camp host site at Idyllwild Campground has traditionally been left vacant for seasonal staff use. As this site is now being converted to public use, a fence will be installed between the two sites for the privacy of the resident camp host. The proposed fence will consist of 4-foot brown lattice panels, installed two feet above the ground surface, to provide a thirty foot long, six-foot high fence along the NW side and northern corner of the site. Eight 4" posts will be sunk up to 12 inches deep; digging will be monitored by the District Archaeologist. The wild roses do not need to be pruned but only pushed back in order to dig the holes. DPR-approved standard project requirements have been incorporated into this project. A copy of these requirements may be obtained by submitting a request to the project Environmental Coordinator listed below.
